

ALPHA PEPTIDES®

RESEARCH VERIFICATION REPORT

Glutathione

Independent third-party analytical documentation summary

Analyte / product	Glutathione
Original sample description	Glutathione 150mg per mL
Labelled amount	150 mg per mL
Measured amount	1513.02 mg
Reported purity	99.048%
Laboratory	Janoshik Analytical
Task number	#109063
Analysis conducted	17 February 2026
Original manufacturer	Lucky Peptide
Original batch	anonymous

Verification

Janoshik verification key: **D6F7C431F9Z9**

Task reference: **#109063**

Transparency note

This Alpha Peptides research verification report reproduces the analytical values shown on the supplied third-party Janoshik test report. The underlying test report identifies Lucky Peptide as the manufacturer/client source and an anonymous batch. Alpha Research Peptides Ltd did not commission the original test and this document must not be interpreted as batch-specific certification of an Alpha Peptides product unless independent supply-chain documentation establishes that relationship.

Source record

Testing ordered: 29 January 2026. Sample received: 11 February 2026. Analysis conducted: 17 February 2026. Values above are transcribed from the supplied Janoshik report image without alteration.
